

# FIBERCABLE 2 SUITE

## FIBERTRACE 2 – FIBERCABLE 2

### RELEASE NOTE

#### V 8.50

#### NOVEMBER 2019

**Note**

This version is a license version which requires a license code. Without license, this software will work in its full FiberCable Suite version for a 30 day trial period. After this trial period, the software will continue to operate, but in FiberTrace Viewer mode.

Once the license has been ordered and the product has been installed and activated, its use is permanent.

VIAVI Solutions also provide 3 years of free upgrade. After this period, if the user still wants to perform upgrade, then an upgrade license shall be ordered to reactivate the 3 years of free upgrade.

To verify the license state of this software, please click on the  icon on top right of the screen, and select “License management...”

Please contact your nearest VIAVI Solutions representative to order the license, or for any further information.

## FiberTrace 2 / FiberCable 2

### *New functionalities*

- Any modification on either folders/trace files/measurement report file list is automatically update on all screens
- Addition of unbalanced splitter icons

### *Improvements*
